

PRESIDENT'S LETTER
September 28, 2022

Hello Fellow Beekeepers,

As fall has arrived, we continue to organize the club presentations for the coming months. Following a very well received production of Beekeeping 102, we have been asked to make the PowerPoint presentations from the seminar available. They have now been posted on the <https://www.tristatebeekeepers.com/> website under the banner REFERENCES in the section Beekeeping 102 Power Point Presentations. Please take the time to review them and please contact us with any questions.

Our October 20 meeting will feature our friend Bob Hooker speaking on Wax, and the November 17 meeting will find Dr. Krishna Urval speaking on Sting Allergies. Please plan to attend and share your experiences and questions on beekeeping. I hope to see everyone there.

Steve
